Iuliia Obruchkova

Frontend Developer

iuliiaobr.io@gmail.com | +79998604017 | linkedin.com/in/iuliia-obruchkova | https://github.com/Yustes88

Summary

Frontend Developer with a strong foundation in React.Js and Next.Js. Developed responsive and user-friendly interfaces. Contributed to a team project that developed an online game for children. Brings fresh ideas and a passion for technology to any team

---

Technical skills

JavaScript (ES5/ES6), React.js, Next.js, TypeScript, HTML, CSS, Sass, Tailwinds, Mantine, DaisyUI, Redux, Redux Toolkit, React Hooks, Prisma

---

Experience

Personal projects:

1.   A dynamic markdown blog website. The interactive interface provides an engaging and user-friendly experience for content consumption.

Scope: NextJS, React, Typescript, Mantine, TailwindCSS

2.   A Spotify clone with user authentication, and in-app purchases. Users can seamlessly register, search and add songs, and build personalized playlists, all within a responsive interface.

Scope: NextJS, React, TailwindCSS, Typescript, Stripe, Supabase

3.   An ecommerce website enabling users to add products to cart and favorite list, update products and delete them.

Scope: NextJS, React, TailwindCSS, Typescript, DaisyUi, Prisma, MongoDB

Education

HTML Academy (2022 – 2023):
• Familiarity with HTML/CSS and layout skills

- Experience in developing JS projects using OOP principles
- Experience in developing SPA projects using React/TS
- Experience in developing SPA projects using NextJS/TS
- Experience in using Git and GitHub for version control
